

THE CATHEDRAL

The clients sought to transform their kitchen and dining area into a cohesive space that captured the essence of Italy with a modern Tuscan feel. Their wish was to enlarge their existing kitchen, which had 8-foot ceilings, by combining it with their dining room, which featured a vaulted ceiling. To achieve this, the design solution was to create a stunning cathedral-vaulted ceiling that seamlessly integrated the two different ceiling heights. The result was a breathtaking transformation, blending traditional Tuscan warmth with modern architectural elegance, perfectly embodying the clients' vision.
