

THE LODGE

This three-story log cabin remodel transformed a family retreat into an inviting and versatile VRBO space, capable of accommodating up to 16 guests. To maximize sleeping arrangements, a former large family room has been thoughtfully divided into two cozy bedrooms. Meanwhile, the spacious basement bedroom, already equipped with its own exterior entrance, has been reimagined as a welcoming family room — the perfect place for gathering and relaxation.

Reflecting a warm, quilted patchwork theme, the remodel is a balanced blend of new materials and treasured items. While all case goods are retained to honor the home's existing ski lodge character the soft goods have been completely refreshed, enhancing comfort and durability. In the kitchen, the previous dated island has been replaced with a large, counter-height dining table, designed to seat up to 12 people, fostering a sense of togetherness during shared meals.

This transformation combines ski lodge charm with updated amenities, providing a space that feels both cozy and practical — an ideal setting for memorable stays. The result is a blend of traditional comfort and modern convenience, perfectly suited to accommodate families and friends alike in this updated cabin retreat.
